## PROFESSIONAL PROFILE

---

Driven and adaptable entry-level worker with expertise in data science and full stack development. competent in creating responsive web applications with a strong background in Python and machine learning, utilizing technologies like HTML, CSS, JavaScript, and frameworks like React. knowledgeable about working with real-world datasets, analyzing data, and creating simple predictive models for both personal and academic projects. eager to contribute to innovative, tech-focused teams and passionate about creating data-driven applications

## WORK EXPERIENCE

---

### ♦ Full Stack Developer Intern (45 Days)

06/2025 – 08/2025

*Up flairs Pvt. Ltd., Jaipur, Rajasthan*

Alwar

- Developed and maintained responsive web applications using modern frontend technologies such as HTML, CSS, JavaScript, and React.
- Built and integrated RESTful APIs using Node.js and Express to enable seamless communication between frontend and backend systems.
- Collaborated with cross-functional teams to design and implement scalable web solutions aligned with business requirements.
- Assisted in deploying web applications and optimizing performance for better user experience.
- Gained hands-on experience in version control systems like Git and followed best practices in code management.

### ♦ Data Science Intern (30 Days)

02/2026 – 03/2026

*Up flairs Pvt. Ltd., Jaipur, Rajasthan*

Alwar

- Gained hands-on experience in data analysis and machine learning using Python.
- Worked with real-world datasets to perform data cleaning, preprocessing, and exploratory data analysis (EDA).
- Built basic machine learning models for prediction tasks using libraries like Scikit-learn.
- Learned fundamentals of Natural Language Processing (NLP) and implemented basic text analysis tasks.
- Collaborated with team members to understand project workflows and best practices in data science.
- Created visualizations using Matplotlib/Seaborn to present insights effectively all .

## TECHNICAL SKILLS

---

Programming Language :-Python, SQL, HTML, C, C++, DSA, CSS

## EDUCATION

---

### Bachelor of Engineering in computer Science Engineering

08/2024 – Present

*Laxmi Devi Institute of Engineering & Technology (LIET), Alwar (Rajasthan)*

Alwar

## PROJECTS

---

### Animal Kingdom Web Application

*Full Stack Web Application for Exploring Animal Species and Categories*

Developed a full stack web application to explore and manage information about different animal species and their classifications.

- Designed a responsive user interface using HTML, CSS, JavaScript for an interactive user experience.
- Added features like search, filter, and category-based browsing for easy navigation.
- Tested and debugged the application to ensure performance, scalability, and responsiveness.

### Old Laptop Price Predictor

*Machine Learning Project for Predicting Resale Value of Used Laptops*

- Developed a machine learning model to predict the resale price of used laptops based on specifications such as brand, RAM, processor, storage, and condition.
- Collected and preprocessed dataset by handling missing values, encoding categorical features, and scaling numerical data.
- Implemented regression algorithms such as Linear Regression, Random Forest, and Decision Tree to compare performance.
- Evaluated model performance using metrics like Mean Absolute Error (MAE) and R<sup>2</sup> score.

### Loan Approval Prediction System

*Machine Learning Model for Predicting Loan Eligibility*

- Developed a machine learning model to predict loan approval status based on applicant details such as income, credit history, employment status, and loan amount.
- Performed data preprocessing including handling missing values, encoding categorical variables, and feature scaling.
- Conducted Exploratory Data Analysis (EDA) to identify key factors influencing loan approval decisions.
- Implemented classification algorithms such as Logistic Regression, Decision Tree, and Random Forest.
- Compared model performance using evaluation metrics like Accuracy, Precision, Recall, and F1-score.
